ACKNOWLEDGEMENT

The completion of project brings with great sense of satisfaction, but it is never completed without thanking the persons who are all responsible for its successful completion. First and foremost, I wish to express our deep sincere feelings of gratitude to my Institution, **NRUPATHUNGA UNIVERSITY**, for providing me an opportunity to do our education.

I extend my deep sense of sincere gratitude to **Dr. Ramya R**, Principal, Nrupathunga University, Bengaluru, for having permitted to carry out the project work successfully.

I express my heartfelt sincere gratitude to **Dr. Leena Swarna devi**, Professor and Head of Department of Computer Science, Nrupathunga University, Bengaluru, for his valuable suggestions and support.

I express my special in depth, heartfelt, sincere gratitude to project guide **Prof. Shashikala P Assistant Professor, Dept. of CS**, Nrupathunga University, Bengaluru, for their constant support.

Finally, I would like to thank all the Teaching, Technical faculty and supporting staff members of Department of Computer Science, Nrupathunga University, Bengaluru, for their support.

ABSTRACT

Database is the collection of information that is organized so that it can be easily accessed, managed and updated. The project is based on database of "ONLINE SHOPPING MANAGEMENT SYSTEM". The online shopping management system deals with the needs of the people. It provides all kinds of products, goods and services. It has both a new user access and admin access. The users can view, check the details of any product and make the purchase. The admin can do the placement orders, inserting a new product and many more things. Separate passwords are provided for both users and admins. Users can pay the cash though online mode too. For every product, there are discounts and offers which the users can afford.
